

Paper Cutting Machine

Cutting length 800 mm

The sturdy, all-metal design guarantees high torsional rigidity, thus ensuring long-term precision and durability. Plastics are only used where it makes ecological sense to do so. Careful and thorough design form ensures consistently professional results.

Alongside ultra-durable construction materials and state-of-the-art production methods, total quality management according to DIN EN ISO 9001 guarantees the superior endurance and cut quality of every Paper Cutting Machine.

- Technical Data:**
- cutting length: 800 mm
 - cutting capacity: up to 20 sheets (DIN A 4, 70 gsm)
 - table size: WxD: 605 x 800 mm
 - hand-lever paper clamping
 - automatic hand guard
 - front gauge can be extended and locked into place, also features device for narrow cuts, and paper supports
 - The narrow-cut device ensures that the front gauge tips away automatically when blade is lowered.
 - paper and material blade
 - blade locking device
